

Acrylic Blocks Product Information

23cm x 15 cm x 2.5cm

18cm x 12cm x 2.5cm

Acrylic face mounting enhances the contrast, adds sharpness and colour saturation to photographic prints for a gloss look unobtainable by any other framing method. Acrylic face mounts are a truly stunning, unique product and will be the focal point for any room.

* When light hits the layer of acrylic, the reflection on the print's surface is completely different from when a print is framed with general-purpose glass. With this unique production method the 'depth' and colour saturation of the image is optimised due to the clarity of acrylic glass. As a result the colours seem more brilliant, intense and direct, bringing a whole new dimension to the print.

PRICING

ACRYLIC BLOCK

18x12x2.5cm | \$80

23x15x2.5cm | \$95

30x20x3cm | \$130

I love capturing a moment and create a memory
